Hawke Sapphire ED 8x42 Binoculars

## Sapphire: Extra-low Dispersion

Choose from open hinge, top hinge & compact models

### Sapphire ED Overview

Every binocular in the Sapphire ED family features extra-low dispersion glass to enhance light transmission and eliminate any chromatic aberration. The dielectric coated prisms will dramatically increase light reflectivity.

The full size models are available with a green or black rubber coating that has been designed to provide both adequate grip and comfort during long periods use.
